

## Landranger Active publication history

Following the Ordnance Survey's Countryside and Rights of Way Act work (CROW) *Explorer Map – Active* was launched on 13 March 2006. "These maps are durable and weather proof ... folds easily to a convenient size ... [with] ... a high street price of £13.99" (*Sheetlines* 75, 5).

Eighteen months later the Ordnance Survey launched the *Landranger Map – Active edition* with Sheet 50, on 26 November 2007. By March 2012 a further 24 sheets had been published. On 30 April that year all the remaining sheets were published, the editions being those of the regular editions at that date.

I wrestled with how details of the editions might be added to the online [Landranger summary list](#), and decided to put the problem to one side for a while. As an interim measure, the table below lists sheets published before and after the 'official' launch date in April 2012.

NB Regular edition publication dates in brackets.
