

Ordnance Survey Leisure Maps Summary Lists

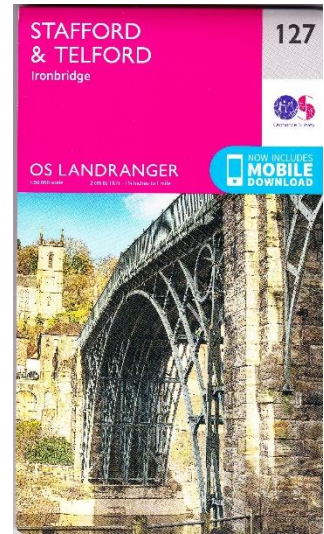

1:50 000 (Landranger) map – New Symbol 2015 editions

Sheet titles are from the 'Leisure map catalogue v1.8'. Grid references are those of sheet southwest corner.

Full revision dates have been derived from older sheet editions. Other dates are: where given in round brackets, in the style '(2/76)', the month and year of publication, as noted in the official publication reports; where given in square brackets, e.g. '[2/80]', the month and year of printing, as deduced from the military print code; where year only given, e.g. '[/80]'.

All Ordnance Survey Leisure Maps were re-branded from June 2015. The editions changed from alphanumeric style - i.e. B2/ - (used since the 1950s), back to month/year style. The symbol \times denotes a rebranded sheet published without a new cover.

The Greek lower-case lambda symbol (λ) denotes 13km interval grid numbering introduced on maps in 2015.

Water resistant Active maps began publication in November 2007, and by March 2012 a total of 24 sheets had been produced. All the remaining sheets were released the following month.

PLEASE NOTE I have the occasional enquiry through these pages about whether I buy and sell maps. I'm not a map dealer but here to compile and revise lists of Ordnance Survey small scale maps. If you are looking for a trader, I recommend you start with the Charles Close Society list of map dealers [here](#).
