

Ordnance Survey Leisure Maps Summary Lists

1:50 000 (Landranger) map

1974 to 2019

Sheet titles are from the 'Leisure map catalogue v1.8'. Grid references are those of sheet southwest corner. Full revision dates have been derived from the maps themselves. Other dates are: where given in round brackets, in the style '(2/76)', the month and year of publication, as noted in the official publication reports; where given in square brackets, e.g. '[2/80]', the month and year of printing, as deduced from the military print code; where year only given, e.g. '[/80]', the year of printing whereby collation of other information seems fairly probable or certain; and where given in 'curly' brackets, e.g. '{4/79}', the month and year of printing taken from the First Series job files.

The letters 'ns' denote sheets carrying new specification material; '§' denotes edition released with full new specification in 2002. The Greek lower case lambda symbol (λ) denotes 13km interval grid numbering introduced on maps in 2015.

Water resistant Active maps began publication in November 2007, and by March 2012 a total of 24 sheets had been produced. All the remaining sheets were released the following month.

PLEASE NOTE I have the occasional enquiry through these pages about whether I buy and sell maps. I'm not a map dealer but here to compile and revise lists of Ordnance Survey small scale maps. If you are looking for a trader, I recommend you start with the Charles Close Society list of map dealers [here](#).

All Ordnance Survey Leisure Maps were re-branded from June 2015. The editions changed from alphanumeric style - i.e. B2/ - (used since the 1950s), back to month/year style. The symbol × denotes a rebranded sheet published without a new cover

Sources: This compilation is based on *A List of 1:50,000 editions, 1974-1994* by Richard Oliver, published in *Sheetlines* 39, p10. Information from 1994 to March 2010 is taken from the Ordnance Survey monthly reports, latterly issued under the title *Leisure map catalogue*. Current information is obtained from the [Ordnance Survey website catalogue](#) released monthly. Printing dates derived from First Series job files (now in the Charles Close Society archive at Cambridge University Library) are taken from Richard Oliver's unpublished notes. All other information is taken from that given on the maps.
