

LANDRANGER 'BAR' REPRINTS

The list includes all known bar reprints published up to late 2012. When I started it, 'bar' reprints were uncommon and generally issued to correct one or more errors on the previous edition. But as Ordnance Survey publication policy has evolved over the years they have become much more common and now include substantial change: in 2013 over half of new Landranger editions were bar reprints. I have therefore decided to discontinue updates, except when a bar reprint is issued solely to correct errors.

William Henwood. September 2014.

Edition: square brackets enclose bars omitted from the map, either by accident or design. Examples include sheet 135 where First Series A was directly followed by A/*/. There was an intermediate state which should have been A/. Sheet 189 Second Series A/*/* was 'Reprinted with major changes'. 2 years later a further state was described as 'Reprinted with minor changes'; this should have been A/*/*/.

Dates: are expressed as mm/yy. Those without brackets are taken from OS publication reports. Square brackets enclose relevant GSGS print code dates. Round brackets enclose printing dates taken from Richard Oliver's notes on First Series job files. Question marks indicate a lack of dating evidence, the date given being based on when the state was first seen or purchased.

Imprints: All text is pre-fixed by 'Reprinted with'. Min Ch = minor change. Min Chs = minor changes. Min Corrs = minor corrections. Corrs = corrections. Dots thus.....indicate that part or all of the text is found in the Distinguishing Features column. [None] = no text relating to the reprint (though the text of an earlier state may remain).

Distinguishing features: these give an indication of the changes. Although the result of careful comparisons, the list does not claim completeness. Minor changes to the legend and marginalia are only described if they appear to be the sole or principal reason for a bar reprint.

Sheet	Edition	Date	Imprint	Distinguishing features
1	2 nd D/	01/09	Min Ch	'2008' specification adopted: caravan / camp site symbol 615908, recreation centre symbol 512905 and 610090. Pier added 586945, with changes to road and ferry routes.
